A hand-drawn wireframe sketch of a climate explorer application interface. The top navigation bar includes a logo, a search bar, and links for About, Science, and Contact. The main content area features a sidebar on the left with controls for 'Climate variable 1' (low to high slider), comparison dropdowns ('series A: {{BEC Unit}}' and 'series B: {{BEC Unit}}'), and a BEC Unit selector ('{{BEC Unit Name}}'). Below this is a line chart comparing two series (A and B) over time. The right side of the interface is a map with various controls: a camera icon for photo submission, zoom (+/-) and orientation (compass) icons, and an 'explore' button with a sun icon.
